Firstly, I have to thank you for all the wonderful reviews and listens for my stuff on Podnome! It's great to have such a solid fanbase. I was so excited to have the opportunity to write an episode of this show, even if it is just a re-telling of the story I've been telling on Twitter. I was so excited to have the opportunity to write an episode of this show, even if it is just a re-telling of the story I've been telling on Twitter. As always, if you have any questions or complaints, I'm at @kevinknun on Twitter! I hope you enjoy the show, the story, and that you have a wonderful day!1. Field of the Invention The present invention relates generally to information processing apparatuses, information processing methods, and computer programs, and more specifically, to an information processing apparatus, an information processing method, and

a computer program for controlling display. 2. Description of the Related Art With the recent spread of larger display devices, display technology has come to play a greater role in design. For instance, in the field of electronic paper, wide-view angle display technology is in demand, and a technique for improving responsiveness, color reproduction, and color reproducibility (reproducing of a true color) is also in demand. On the other hand, in the field of mobile electronic devices such as mobile phones, the increasing popularity of services such as 3D display functions is an issue. In addition, the electronic paper is a medium which is expected to be applicable to a display alternative to paper. The electronic paper should have a low-power consumption characteristic, superior visibility, capability of being rewritten, quietness of display, and a long life.
