Q.U.B.E. 2 combines the elements of action and puzzle gameplay to allow players to control the environment to defeat huge puzzles using the power of physics. As an alien, you must travel through the wreckage of Earth to find a suitable place to live. After settling down, you discover the alien power you require to make your planet habitable. In the original game, you battled the inhabitants of an alien space craft as a reporter from Earth. However, your efforts to expose your home planet's colonization and power struggle to the aliens failed. The fate of the world now lies in your hands. --- Turdy the Game is an Art Project based on a long-time goal of mine to make a 2D Retro platformer using retro graphics and game mechanics reminiscent of games made in the 90's. I've been playing and creating games my whole life, and I've always been more interested in creating games from the ground up using retro graphics than it is about just re-releasing other games using nostalgia. The goal with Turdy is not only to create a fun retro game. I want to create a

beautiful experience for players. I want to put gameplay first, then graphics. I want the player to have fun while they are playing, and that is why the art is going to be very important. I want you to feel immersed in a world that looks and feels like an era when people actually had a console and CD-ROMS instead of how most of us have a modern-day cell phone, tablet or computer. --- Game Design: --- Turdy the Game is an art game. Turdy the Game is a 2D side-scrolling platform game. The levels, all throughout the game, are designed to be as large as possible. This means that Turdy will be traversing massive open world on his journey. There are no limits to how big each level is, as long as it is very large and very full of gameplay. The size of the worlds we are creating are going to depend on the number of people we are reaching out to. A living, breathing game, Turdy the Game is not a static art project, you will be playing Turdy the Game for as long as the game is being made. You are playing as Turdy, a

turtle. Turdy is one of the NPC's you encounter on your journey. Turdy is not a playable character in the game. Turdy is a side character who gives you quests, and is in charge of sharing information about the world, secrets, and events. The rest of the game is entirely the player's experience. There is no NPCs to fight or even talk to; there are no sub-levels to access, and there are no secrets to discover. Turdy the Game is a journey, not a goal. Each and every Turdy the Game level is made to be fully playable, with room for exploration and fun gameplay. The level structure is designed to encourage both new and returning players to keep on playing. However, as you play more levels and collect items, you will unlock new costumes, pets d41b202975
