Briefly, Photoshop CS5 would work if you loaded the amtlib.dll crack version (or the paid for "master collection") that had the correct file path. You should be able to find that same version of the crack here: amtlib.dll archive download You would need this path to be in the user info folder: C:\Users\username\AppData\Roaming\Adobe\Photoshop CS5. Also, you would need to copy the correct path to the image you wanted to filter where it says: "Amtlib.dll path": While I don't know much about Mac or other windows, I would assume that you would need to setup the proper path in the like shown above with the same path to the file in the image you wanted to filter.
